Technical Expertise. Reliable Outcomes.

RYALEX SECURITY
COMMERCIAL SECURITY SPECIALISTS

Protecting people, assets and operations.

Security Managers need more than security systems. You need confidence.

Your responsibility extends far beyond cameras and access control. You're protecting people, securing assets, reducing risk and maintaining operational continuity.

Ryalex delivers intelligent, integrated security solutions that strengthen situational awareness, improve operational visibility and support faster, more informed decision-making.

Whether managing a single facility or a national portfolio, we help create secure environments that perform when they matter most.

Designed for:

- Operational visibility
- Asset protection
- Incident response
- Business continuity
- Integrated site security

Secure, integrated and future-ready infrastructure.

We play a vital role in protecting people, supporting compliance and reducing operational risk.

For IT & Facilities Managers security should work with your technology, not around it.

Our solutions integrate seamlessly with enterprise networks and existing infrastructure, delivering secure, scalable platforms built for long-term performance.

- Network integration
- Scalable architecture
- Enterprise ready
- Future focused

Technical Expertise. Reliable Outcomes.

Safer workplaces. Reduced risk. Greater compliance.

We play a vital role in protecting people, supporting compliance and reducing operational risk.

Ryalex helps organisations create safer workplaces through security solutions that support legislative obligations, operational resilience and industry best practice.

Backed by recognised certifications and rigorous quality standards, we deliver confidence where it matters most.

Certified to Australia's highest standards for quality, safety and security.

ISO Certified, Government Prequalified, ASIAL Member

Licensing, Compliance & Certification

Technical Expertise. Reliable Outcomes.

Supporting the industry's leading technologies.

Access Control Systems

Scalable access control solutions using RFID, biometrics and mobile credentials.

Intruder & Duress Alarm Systems

Intelligent alarm systems designed to deter, detect and protect.

CCTV & Video Surveillance

High-definition surveillance with intelligent analytics, remote access and seamless integration.

Remote Video Monitoring

Real-time monitoring and alarm verification that reduces false alarms and improves response times.

Relocatable Solar Camera Systems

Rapidly deployable surveillance for construction sites, infrastructure projects and temporary locations.

Perimeter Detection Systems

Advanced thermal imaging, intelligent motion detection and radar technology for enhanced perimeter protection.
